

LISTE DES CAPTEURS

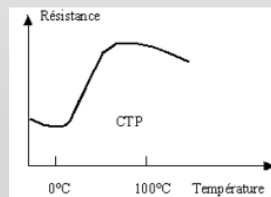

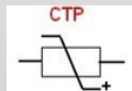

Capteurs de température

• La thermistance :

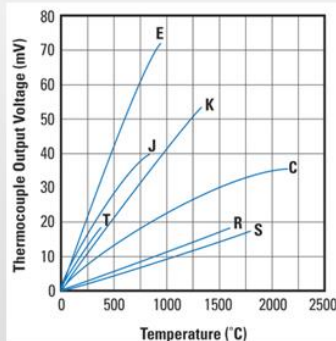

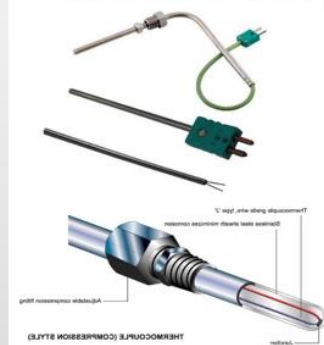

- **CTN** (coefficient de température négatif) : la résistance **diminue** quand la température **augmente**.

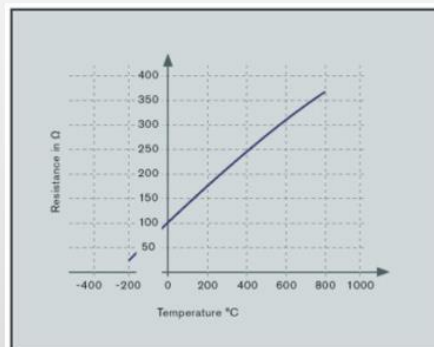

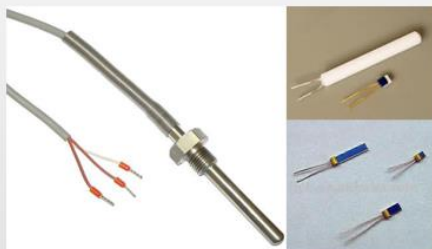

- **CTP** (coefficient de température positif) : la résistance **augmente** quand la température **augmente**.

• Le thermocouple :

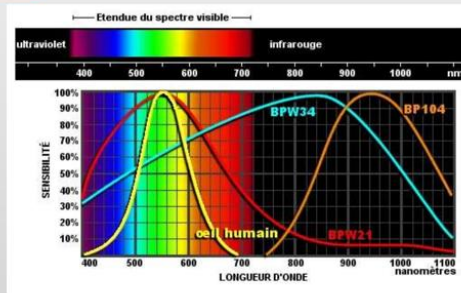

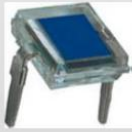

• Thermistance Platine Pt 100 :

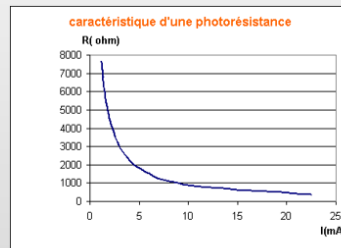

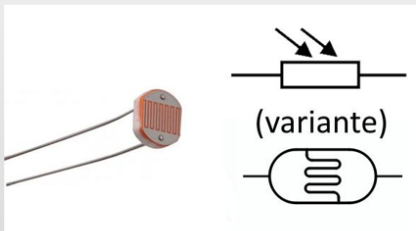

Capteurs photoélectriques

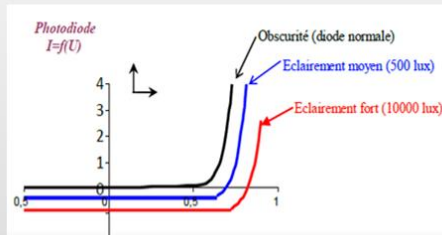

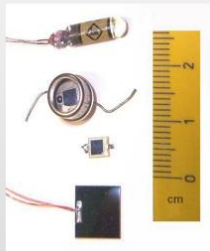

- **La photodiode :**

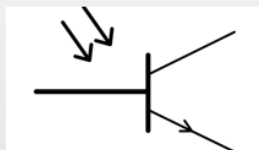

- **La photorésistance :**

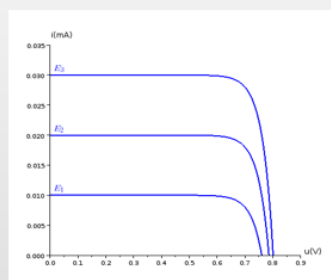

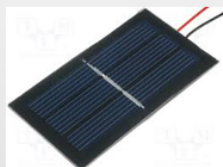

- **La photodiode :**

- **Le phototransistor :**

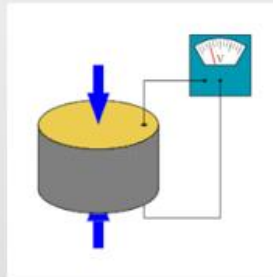

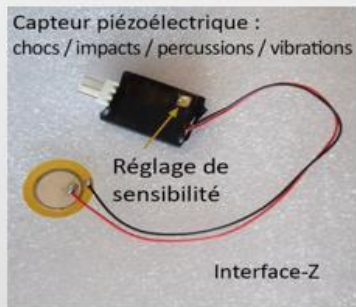

- **La photopile :**

Capteurs de contraintes

● Les capteurs piézoélectriques :

● Le microphone :
